

Dr. Ben's Bio

Dr. Johnson's medical career spans over thirty years, from his graduate work in immuno-pathology in 1976 to his current concentration-writing and speaking on staying healthy, especially for women in the area of breast health. He earned his Osteopathic Medical degree in 1981, his Doctor of Naturopathic Medicine degree in 2001, and his M.D. in 2004. Dr. Johnson worked in both General Practice and Emergency Medicine from 1982 to 1996, serving as a U. S. Army Reserve Flight Surgeon as a Major for 13 years and a Senior Aviation Medical Examiner for the FAA. In 1997 Dr. Johnson began to formally combine conventional and complementary medicine, moving back home to Georgia and founding a complimentary/alternative cancer clinic in Atlanta, The Immune Recovery Foundation. Turning in 2004 to breast cancer research and breast health education, Dr. Johnson founded the International Cancer Foundation in Rossville, Ga. Dr. Ben, as he is known, has helped thousands of women, and health care professionals around the world seek his advice.

Dr Ben shifted from the allopathic model of medicine as he came face to face with his own medical challenges. Diagnosed with Lou Gehrig's disease in 2003 and finding no hope in either conventional or alternative medicine. Dr. Ben met Alex Loyd, creator of the "[Healing Codes™](#)". Dr. Ben's subsequent work with Loyd's procedures-addressing the core emotional/energy issues that control every aspect of our lives-and relief of the "incurable" symptoms of ALS led to Dr. Johnson's appearance in the best-selling, 2006 documentary film *The Secret™* and co-

authoring of the best selling book [The Healing Codes](#) and [The Secret of Health: Breast Wisdom](#).

Dr. Ben has seven children and eight grandchildren. He currently resides in Southern California. He is an active member of his local church and enjoys bee-keeping, horseback riding, hunting, skiing, and scuba diving.

Dr. Ben owns Dr. Ben Johnson Services LLC, a business promoting natural health care products, and healthy breast cancer screening for women. Always looking for more ways to spread his message of health and wholeness, Dr. Ben has just finished “Healing Water” released in June of 2011 and a new book on Thermography and the health problems associated with mammography to be released in 2012.

“. . . stay emotionally clear and live in love.” Dr. Ben Johnson, [The Secret of Health: Breast Wisdom](#).
